

Welcome to the Early Years!

Vision Statement

In the Early Years at The Links Primary School we believe that all children are unique individuals. We provide children with a safe, secure and nurturing environment where all children can flourish.

We pride ourselves on listening to children and those who care for them, this helps us to personalise each child's learning.

Learning should be fun and we strongly value the importance of 'playing with a purpose' facilitated by our engaging indoor or outdoor learning environment. We understand the importance of practical learning experiences and strive to equip children with a love of learning and a natural curiosity. We believe this develops children's thinking and problem solving skills and independent learning strategies.

We are committed to giving our children the best possible start to their school life, which will ensure success in the future.
